We have Liverpool dates to the 27th ultimo, by the steamer Kangaroo. The Liverpool breadstoffs market was declining and all articles were slightly lower. A very full synopsis of the steamer's news will be found under the telegraph head. Portugal has delivered over to France the captured elever, Chas. George. The offsir has created great indignation against France in Great Britain, and the English papers condemn the French Government in the strongest language. The New York Produce Market was active and rather higher yesterday, while the contrary

SAD ACCIDENT ON THE CHICAGO & MILWAUERE Killed.-We learn that as the down passenge train from Milwaukse resterday afternoon, was running at speed about two miles and a half this side of Waukegan, and about seven c'clock P.M., at the crossing of the road at that point, the train ran into a farmer's team, a yoke of oxen attached to an empty wagon in which the owner was sected. The Chamber of Commerce. The Chamber of Commerce, in the Free Domocrat building, is now entirely completed and will be ready for occupancy to day. It is an elegant, lofty apartment, thirty feet wide and one oundred feet deep, fronting on Spring street, and occapying the main floor of the handsome brick block on the west side of Spring street bridge. It is fitted up with excellent toute, and in every respect is eminently adapted for the business to which it has been applied. It was originally intended for a store, but had it been designed expressly for the purpose to which it is now being put, it could not well be improved upon .-One of its most desirable features is the location it occupies. Situated very near the business centre of the city, it is about equi-distant from the various Railroad termini, and therefore could not be more conveniently located for the busi-

ness of a Corn Exchange. A more minute description of the Chamber of our resders who may not have an opportunity to visit it. As we stated above, it is one hundred feet deep, by thirty wide. At the end, opposite the entrance, is a platform fifteen inches above the floor, for the presiding officer and secretary. This is surrounded by a handsomely grained oak railing, and provided with a desk and seals. In front of this, a few feet on a level with the floor, is another railing, behind which a table is placed for the use of the reporters. From the reporters' desk to within about twenty feet of the entrance is a row of large tables extending slong the centre of the room, upon which the samples of grain are to be exhibited. On the east side of the room, running from within a few feet of the door to the south end, la a row of little stalls, eight feet square, each suclosed with a railing simistand, about two and a half fest high. These members of the Chamber of Commerce, who

may desire to rent them. On the opposite side of the room in a large black board, seventy feet long, upon which files of all the commercial newspapers in the country will be kept. It is capable of holding thirty large newspapers. In addition to this, is a nest little portable bulletin board, upon which the telegraph reports of the Esstern Markets will be posted daily for the use of members. The winlows at each alde of the main entrance are large and showy, and in each is a very beautiful ges burner. Over the entrance is a large eval window, upon which is elaborately palated, in semicirclular form, the words "CHAMBER OF COMMERCE-NO. 1."

One. Spring street, being the number of the building. The room is heated by one of Williams & Lord's Hot Air Furnaces, which is placed in the basement, and altogether its arrangements are admirably suited for the nurnoses of a commercial resort. The railing which is a creditable piece of workmanship, was manufactured by Messrs. J. G. Leffingwell & Co., and the graining and painting done by Mr. Edward Bagnali, one of the best house painters in the city. His part of the work shows good taste and speaks for itself. About eighty of our business men have become members of the Chamber of Commerce, since its erganization, which is only two or three weeks ago, and now that their room has been fitted up undoubtedly many others

will join the Association. The Chamber of Commerce will now afford our Merchants and Business Men an opportunity of introducing their Mercantile friends from abroad on 'Change. Indeed it cannot fail to be of great benefit to our city, our Commercial men more particularly, and we think the Chamber of Commerce may now be considered one of the

permanent institutions of Milwankee. Visit of the Detroit Light Guards. The Datroit Light Guards, under the comand of Capt. A. L. "Uxcle Ben" On Hand .- With the approach of cold weather, the old and well-known friend of the public, Uncle Ban ThRoop, is ready, at proposed to pay these gentlemen, by authorizing his Emporium on East Water Street, to supply "all the world and the rest of mankind," with fur capes, clouks, cuffs, muffs, caps, sleigh-robes, overshoes, and all other articles of winter wear The aggortment of fura is very large and of all styles, varities and prices. In actiones and art, and in intellectual development, the whole earth has been astonished at co-tilined and starting successes and achievements. All trades, business sycoations, professions and puredits, have met everywhere with the success they have deserted. In all things commendable and useful, and of good report, we have met the approving small of our Father who is in Heaven. By the Governor,

J. D. Rusques, And't Sec'y of State. Why the News Betrayed Bade and Dolan.

The News occupies some two-thirds of a column, in yesterday's lasue, to explain its treacherous course towards Mesers. Bads and Dollar the regular Democratic nominees for Sheriff and County Treasurer. It was a personal grudge which prompted the "bolting" course of the News. Mesers. Badz and Dolan, it appears, were "two" of the "ten men," who "were vile enough to lead their names? to the charges which were preferred against Col. SHARPSTEIN before the U. S. Sanate, last winter, and upon the strength of which he was rejected. The provocation, it must be admitted, was strong, and we leave the News to settle the question as to its sufficiency with the "regular Democracy" of the County.

The News takes satisfaction in the thought that the "Sentinel clique" find the election of Mosers, Langworrey and Barry "a bitter pill." If it be any consolation to the News, in this hour of its effiction, to "lay this flattering unction to its soul," it seems crnel to deny it that "crumb of comfort," But, personally, there were no two gentlemen in the field, whose success could be more gratifying to us than that of Messrs. Langwonthy and Barry, and there were, besides, political considerations which made the election of the former especially acceptable. We are sorry to distress the News, but such is the fact.

Gov. Seward's Speech at Rechester. We published last week the very able speech delivered by Gov. SEWARD, at Rochester, N. Y., a few days prayious to the late election. That speech, while ominently satisfactory to the Republican sentiment of the Free North, has sorely vexed the Doughfaces. They see in it noth ing but Treason and Dis-union. Thus the Stevens Point Pinery, in this State, edited by one of Uncle Saw's officials, and a zealous adherent of aMr. Buchanan's policy and fortunes,

says:

Wm. H. Seward has lately delivered a speech at Rochecter, N. Y. It is pregnant with the bollos, disunion sentiments. He is reported to have said, see a fundamental proposition, that the United States must, very soon, become cither wholly free or wholly siave! This is a distinct enunciation on the part of the great Republican champion, of war on the Southern States. Mr. Sawerd is incare.

Soward is incane. We should be glad to have our venerab friend of the Pinery cite a single one of those hald "discusion sentiments" which he finds so plenty in Mr. Szwann's speech. We should, also, like to have bim publish that declaration of "war on the Southern States." which he affects to see in it. The readers of the Pinery will then be able to decide for themselves which is the most "insane," Gov. SEWARD, or the editor of the Pinery.

THE NEWS AND JUDGE NOGGLE.-The News copies from the Sentinel the remarks made by Mr. H. T. SAUNDERS, at Racine, fully exculpating Judge Nesser from the charges made against him by the News, some days since, and thus furnishes the authority on which the false charge was based:

The facts were communicated to us by BERIAE Brown, substatially as we published them. GRANT COUNTY ELECTION—NOTES TO THINK OF

All considered, the result of the election in
Grant county is highly favorable and creditable.
The day was a hard one for Republicans, who
generally live in the country. It was favorable
for democrate who inhabit the villages where
elections are generally held; the gods were
surely vexed about comething, and sent a blustering storm; a regular non-elector blaw up the

But, the day of final retribution against "king cetton" is only postponed. The Censers did not tall in a day, but their full was a leveller when their time was full. They fall to the no more. The whole question of ireedom or elawory was presented without exceptions. 'Judge Palae and J.FT. Mills, in canvassing before the people, took the whole ground of Saward, Washburn and Trumbull. Judge Dunn, in his canvass, took the square Buchansan ground, while almost every democratic paper taught the Douglas doctribe. Mr. Corning's defeat by a large majority in the Albany Corgressional District, is the most re-markable incident of the election. He is com-phatically a man hard to beat. To personal qualities well calculated to make him popular, be unites the influence which a large fortune and vast business necessarily confer. His qualifications we deem it quite improbable that he would wilfully misrepresent Judge Nonguk or his court.

We are ready, with the News, to acquit Mr.

THE DAILY SENTINEL SPECIAL NOTICES.

THE NOBLEMAN OF EASTH.

The truest nobleman of earth,
Is ho who loves to be
The first companion of the good,
The here of the free,
Who works undesured for the poor,
Who seeks no rank in name;
Whose begs ascend to heaven in crowde,
As sparks fly up from figures !

As sparks thy up from tiames!

Give me that nobleman of mind,
Who loves a noute cause;
The right of labor's survey ass,
And freedom's righteous laws!
The hater of each evil scileme
A tyrant may advance;
A giant's strength about his heart,
Thoughts brilliant in his glance!

I love the noblemen of carth,
Who strives to heast the ago;
And leaves agir flows to caught
On history's faithful page:
Whose bome the millions love to liep,
Truth's sure undinching guest;
Who shives in love as does the sun
In palace of t. a West!

Ho's deathless as the mighty skies,
When jeweled through with stars,
Oudd feel God's beauty is a blaze o
Burst through his prison bars!
No manday from the tyrant breaks
His spirits upward bound;
White high on every liberal creed
His name is blazoned round!

And perjured kings may pass from earth, Their pomp and lustre fade, But nature's nobleman uncharps the crue laws they've made. His worshipped minarch is his God, He leaves a name behind, Plushed with effugence that reflects His majesty of mind!

Washington Cambing House.
One of the most celebrated and successful sportsmen of this or any other country was buried in this city on Sunday week. The occasion of his death sifords a sketch of the man and a description of his gaming-bonse. Let it serve as a warning, not as an example.

He had been a resident of Washington some fifteen or twenty years, during which period he amassed great wealth by gambling, or, to use the mild and honest language of the avenue, "he realized an ample fortune out of the successful operations of his house!" His "house" being the most elegant, and his back the most weight; and substantial in the country, it has been for years the fashlousble resort of wealthy planters, last Congressmen, town every part of the world. For many years past he has lived in the most luxuriant style, like a certain other rich man, "been dothed in purple and fine linen, and faring sumptuously overy day." In person he was above the medium size, fat and sleek, of pleasing address, and a generous disposition; exhibiting in his general deportment to strangers the characteristics of a weil-ed, good-natured clergy—man rather than those of a heartiest, unrelenting gambler.

If a college was to be endowed, a church built, or private obstities to be dispensed, his was zero to be among the most munificent of the donations.
